

Rolling 12-Month Review

Pasadena PD

Date Range

5/1/2022 00:00:00 to 4/30/2023 23:59:59

SoundThinking sends alerts thru the ShotSpotter program. This is published to customers within 60 seconds of the incident occurring (90% or more of the time). If there is a break in shooting volley, the additional incidents will be sent for the same location or nearby. Therefore, the number of alerts may be affected by these additional incidents. SoundThinking Proprietary and Confidential. Internal Use Only. This report contains proprietary, confidential, and copyrighted data and may not be used for any purposes other than those explicitly authorized by the SoundThinking license agreement and may not be distributed outside the licensed customer's department without the express, written permission of SoundThinking.

Executive Summary

1. Gunfire last month compared to the same period last year:

In the event there is no data for the month last year, it will display only the current data.
